1 | Who we are

Moomoo AU is an Australian Financial Services licensee (Licence No: 224663) licensed by the Australian Securities and Investments Commission (ASIC).

Moomoo AU's parent company, Futu Holdings Limited (Nasdaq: FUTU), is backed by various strategic and venture capital investors including Tencent, Sequoia Capital, and Matrix Partners.

Moomoo AU is a broker-dealer based in Sydney and licenses an online trading platform (**moomoo**) from an affiliated entity called Moomoo Technologies Inc.. The moomoo trading platform is completely free to download with no commitment to open a brokerage account. Our clients can use moomoo to apply to us for a brokerage account.

For further information on Moomoo AU, you can refer to our website, <https://www.moomoo.com/au>, and the Australian Securities and Investments Commission (ASIC) database.

2 | What financial services we offer

Moomoo AU holds an AFS licence (Licence No: 224663) under the *Corporations Act 2001* (Cth) (Corporations Act). We are authorized by our affiliated entity called Moomoo Technologies Inc., to be the operator of the moomoo trading platform. Under our AFS licence we are authorised to provide the following financial services:

- deal in financial products;
- provide general financial product advice;
- apply for, acquire, vary or dispose of financial products on behalf of another person; and
- provide custodial or depository services (other than investor directed portfolio services).

to retail and wholesale clients.

We provide financial services in respect of the following classes of financial products:

- deposit and payment products limited to basic deposit products;
- debentures, stocks or bonds issued or proposed to be issued by a government;
- interests in managed investment schemes (excluding investor directed portfolio services);
- derivatives; and
- securities.

We may provide general advice and information in respect of financial products and services that can be dealt with through moomoo. This information or advice does not take into account your personal financial situation, objectives or needs. Therefore, before acting on the financial advice, you should consider the appropriateness of such advice having regard to your personal financial situation, objectives or needs.

We do not provide, and are not authorised to provide, personal financial product advice. It is at your own discretion to decide whether or not you want to use our services. In the event that you need assistance or advice in this regard, you should consult a suitably qualified financial adviser. You will not receive a Statement of Advice from us.

Effective from 08 April 2024, unless otherwise instructed by you at the time of completing your account opening application, each new account created by you through the Moomoo trading platform will be assigned an individual Holder Identification Number ("HIN") in the Clearing House Electronic Subregister System operated by ASX Settlement Pty Limited ("CHESS"). Any ASX-listed financial products you acquire through the account will be individually CHESS-sponsored and directly registered under your name. All execution, clearing and settlement services relating to ASX-listed financial products through the **CHESS-sponsored accounts** are provided by FinClear Execution Ltd, ABN 56 061 751 102, AFSL 246842.

For more information relating to the CHESS system, including its potential benefits, refer to ASX's factsheet: <https://www.asx.com.au/content/dam/asx/investors/investment-tools-and-resources/education/chess-brochure-march-2016.pdf>

When you specifically provide us with instructions to create a **custodian account** for ASX products at the time of completing your account application, we will provide custodial and depository services (other than investor directed portfolio services) to you and will hold the financial products acquired by you on bare trust. Moomoo has a custody arrangement with a third-party asset holder (otherwise referred to as a "sub-custodian"), under which the sub-custodian will hold legal title to financial products that you acquire. Under this arrangement, moomoo will hold the beneficial interest in your financial products on your behalf. Under a bare trust, the trustee that holds your financial products will only deal in those products in accordance with your instructions. This is known as a "Custodian Model" for holding financial products.

Clients with existing **custodian accounts** which were opened before 08 April 2024 may elect to open additional **CHESS-sponsored accounts** at any time, though they may also elect to take no action and continue to use the existing **custodian accounts** without any changes or disruptions to the current services.

There are pros and cons associated with each model, some of which are described below.

Custodian Model		CHESS sponsored Model	
Pros	Cons	Pros	Cons
Access to international markets – holding a custodial account enables you to trade in international markets.	Communications – because you will not appear on an entity’s member register, you will not receive information directly from that entity.	Direct ownership – under the CHESS system you hold legal title to your securities via your Holder Identification Number (HIN).	Paperwork – you receive shareholder notices and other communications from all issuers and registries of which you own shares, some requires written correspondence from you in order to participate in certain corporate actions.
Easier administration – removes the various forms of communications sent by issuers and share registries. You can participate in corporate actions by simply instructing Moomoo.	Legal title – although you will hold a beneficial interest in the products you acquire, a custodian will hold legal title to your financial products. This means the custodian’s name will appear on an entity’s member register.	Verification – because your CHESS holdings are linked to your HIN which is linked to your tax file number.	Access to international markets – because CHESS is specific to Australia, you cannot buy or sell in international markets. You may be required to open an account that uses a Custodian Model to trade in international markets.
/	Voting rights - you can instruct Moomoo to cast proxy votes in shareholder meetings on your behalf.	Voting rights – are directly granted to you by the issuers.	/
